Abhishek Goswami

AI Agent & Workflow Automation Specialist

itzmoksh01@gmail.com | +91 6396911836 | linkedin.com/in/itzabhishek | bit.ly/4t6XY1Q

PROFESSIONAL SUMMARY

Specialist in autonomous, multi-step AI workflows - systems where AI handles sequences of work end-to-end with minimal human input: content ideation, generation, refinement, and publishing running as one connected pipeline. Experienced in structuring prompts, guardrails, and workflow logic so AI systems behave reliably at production scale.

CORE SKILLS

AI Automation & Systems: End-to-End Automation Systems, Social Media Automation, Automated Publishing Workflows, AI Content Pipelines, Process Automation, Workflow Optimization

Prompt Engineering: Advanced Prompt Engineering, Master Prompt Design, Custom Prompt Bibles, Reusable Prompt Systems, Prompt Libraries, Optimization & Standardization

Generative AI: Multimodal AI, AI Video / Image / Text / Audio Generation, AI-Assisted Content Production

AI Tools & Platforms: ChatGPT, Gemini, Claude, RunwayML, HeyGen, ElevenLabs, Pika Labs, Kling AI

AI-Assisted Development: Vibe Coding, AI-Assisted Web Development, React, Node.js, WordPress

AI Video & Media: Text-to-Video, AI Avatar Creation, Lip-Sync, UGC/CGI Ads, AI Animation, AI Voice Generation

Editing & Design: Filmora 15, CapCut, Canva

Professional: Client Management, Creative Briefing, Project Ownership, Agile Delivery

WORK EXPERIENCE

AI Prompt Engineer (Full Time) | MS2 Entertainment LLP

04/2026 - Present

- Design end-to-end AI production workflows connecting ideation, prompt generation, content creation, refinement, and publishing into scalable AI-driven systems.
- Develop AI automation systems for content operations, including social media automation workflows that generate AI content and auto-publish to Instagram and YouTube.
- Build AI content workflows using master prompts, custom Prompt Bibles, and reusable prompt frameworks - improving consistency and cutting repetitive production time.
- Design advanced prompts and structured prompting systems for multimodal Generative AI content (video, image, text, audio) for high-profile clients.
- Use AI-assisted development and vibe coding to rapidly build and iterate websites and digital workflow solutions.

AI Executive (Full Time) | Pinnacle Web Solutions

09/2025 - 04/2026

- Led end-to-end AI video production: UGC-style ads, CGI product videos, AI avatar spokesperson videos, and branded 3D animations.
- Translated client creative briefs into commercially viable AI-generated content; iteratively refined outputs to production standards.
- Engineered advanced prompts for RunwayML, Pika, and Kling AI (text-to-video / text-to-image), optimizing for consistency, photorealism, and brand alignment.
- Built AI video ads focused on engagement and conversion for lead-generation campaigns.
- Directed AI avatar production in HeyGen with precision lip-sync and ElevenLabs voice generation, cutting traditional production requirements.

AI/ML Intern | Infosys

11/2024 - 01/2025

- Owned ML pipeline stages - data collection, cleaning, preprocessing, feature engineering - for a fintech fraud-detection prototype.
- Wash Trading case study on ERC-20 blockchain transaction data; applied supervised ML to detect suspicious financial patterns.

KEY PROJECTS

- **AI Social Media & Business Automation Systems (2026)**

AI workflows that generate social media video content and automate publishing across Instagram and YouTube.

- **AI Content Workflow & Prompt Engineering Systems (2025-2026)**
  Master prompts, custom Prompt Bibles, and reusable frameworks that standardized production and cut repetitive effort.
- **AI-Assisted Web & Workflow Development - MS2, MAXOTO, Project Tracker (2026)**
  Websites and workflow tools built with AI-assisted development and vibe-coding approaches.
- **AI Social Media Content - MS2, Sukh Sagar, Sangam, Tirupati Jewels, Yagya Estate**
  Platform-specific AI video and visual content tailored to brand identities and campaign goals.
- **Generative AI Brand Campaigns - Red Bull, Coca-Cola, Goldiee Masala, FCML Interiors**
  Cinematic product visuals, branded video sequences, and production-ready ad assets via advanced prompt engineering. (2025-2026)

EDUCATION

B.Tech, Computer Science - SRMS College of Engineering & Technology, Bareilly (08/2021 - 09/2025)

CERTIFICATIONS

Google AI Professional Certificate (Coursera) | Microsoft Generative AI Engineering (Coursera) | IBM Generative AI Engineering (Coursera)
